WORK EXPERIENCE

Associate Project Manager, TUBITAK SPACE Technologies and Research Institute

Sept 2012 to Jan 2025

Ankara

- Led project coordination activities within the TURKSAT 6A satellite program.
- Managed project risks, schedules, and stakeholder communication to support successful delivery.
- Tracked requirements, project progress, and key milestones throughout the project lifecycle.
- Facilitated Agile ceremonies and collaboration between cross functional teams as Scrum Master for a subproject of TURKSAT 6A. Used Jira to manage and track software development subproject activities.
- Prepared management reports (Excel, PowerBI, AI tools), project presentations, and performance updates for decision making.

Project Risk Manager, TUBITAK SPACE Technologies and Research Institute

Sept 2012 to Jan 2025

Ankara

- Led risk identification, assessment, and mitigation activities across project lifecycles. Applied ECSS standards in space projects.
- Maintained risk registers and tracked mitigation actions to reduce project exposure.
- Collaborated with cross functional teams to proactively address project risks and issues.
- Supported compliance with project standards, processes, and governance requirements.
- Provided regular risk reporting and recommendations to project stakeholders and management.

Scrum Master, TUBITAK SPACE Technologies and Research Institute

Sept 2019 to Dec 2021

Ankara

- Facilitated Scrum ceremonies, including sprint planning, reviews, retrospectives, and daily stand ups.
- Coached team members on Agile and Scrum practices to improve collaboration and productivity.
- Worked closely with Product Owners to prioritize and refine the product backlog.
- Removed impediments and tracked team progress to support successful sprint delivery.

Budget Analyst, Ziraat Bank

Sept 2007 to Sept 2012

Ankara

- Developed annual budgets and financial forecasts aligned with business objectives.
- Conducted budget analysis and monitored spending against approved plans.
- Identified budget variances and provided recommendations to mitigate financial risks.
- Prepared financial reports and forecasts for senior management.

- Partnered with stakeholders across departments to support budgeting and planning processes.

PROJECTS

Data Analytics Project

Sept 2024 to Present

I managed end-to-end data analytics projects, working closely with data scientists, data engineers, and business stakeholders to deliver solutions that supported business objectives. I was responsible for project planning, stakeholder management, risk mitigation, Agile delivery, KPI monitoring, and executive reporting throughout the project lifecycle.

Turksat 6A -Satellite Project

Dec 2014 to Jan 2025

Over the past 10 years, I have had the opportunity to serve as a risk manager and associate project manager, contributing to the successful progression of this significant endeavor. The scale and complexity of TURKSAT 6A have provided me with unparalleled challenges and learning experiences, allowing me to refine my skills in risk management and project coordination. Furthermore, the newest and largest project that stands out in my career is TURKSAT 6A. Its magnitude and the innovative technologies involved make it a landmark project not just for my career, but also for the industry. This project has truly been a testament to the power of teamwork, innovation, and meticulous planning, and I am incredibly proud of the contributions I have made to its success.

IMECE Satellite Project

Nov 2013 to Sept 2015

During the period from 2013 to 2015, I served as the Project Risk Manager for the IMECE project. In this role, I applied risk mitigation techniques and conducted risk analysis in accordance with ECSS standards. Besides, I developed and implemented a risk management system that reduced risk exposure by 2%.

Balistika Projects

Jan 2013 to Jan 2025

It is a project of ballistics marks of bullets and cartridge cases. I have been working as an associate project manager in this project and my responsibilities are: Implemented project lifecycle management processes to ensure project requirements were documented and tracked throughout the project. Developed and implemented a project management system that improved team collaboration and communication. Developed project presentations for executive management to communicate project progress and results. Utilized project management tools to track project progress, resulting in more efficient and effective resource allocation.
